AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State-st., opp. Kilby-st., Boston.

AFTER AN EXTENSIVE PRACTICE of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with despatch. Researches made to determine the validity and utility of Patents, of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."

CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring Inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakeable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

CONSUMPTION CAN BE CURED.

SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,

Are the only medicines that will cure Pulmonary Consumption.

Sometimes medicines that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood; hemorrhage follows, and in fact, clogging the action of the urinary organs that caused the cough.

Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many are now complaining with a dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and others times drowsy; the food that is taken lies heavily on the stomach, accompanied by acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and the cough in these cases be suddenly stopped, the lungs, liver and stomach clog, and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result.

Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.

Schenck's Seaweed Tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system and creates a healthy circulation of the blood. When the bowels are costive, skin sallow, and the patient is of a billions habit, Schenck's Mandrake Pills are required.

These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Pa., and for sale by GEO. C. GOODWIN & CO., 38 Hanover street, Boston, and John F. Henry, 8 College Place, New York, Wholesale Agents.

For Sale by Druggists generally.

WEDNESDAY, JUNE 18, 1873.

DARWINISM IN THE KITCHEN.

I was taking off my bonnet
One afternoon at three,
When a hinsect jumped upon it,
As proved to be a flea.

Then I takes it to the grate,
Between the bars to stick it;
But I hadn't long to wait
Ere it changed into a cricket.

Says I, "Surely my senses
Is a-goin' in a fog!"
So to drown it I commences,
When it halters to a frog.

Here my heart began to thump,
And no wonder I felt funky;
For the frog with one leap jump,
Leaped itself into a monkey.

Then I opened wide my eyes,
His features for to scan,
And observed with great surprise,
That that monkey was a man.

But he vanish'd from my sight,
And I sunk upon the floor,
Just as missus with a light
Come inside the kitchen door.

Then a beginnin' to abuse me,
She says, "I am sure you've been drinkin'!"
I says, "No, ma'am, you'll excuse me,
But I've merely been a thinkin'.

"But as sure as I'm a cook,
That party what you see
A-gettin' out of a winder,
Have developed from a flea!"—Judy.

Said Artemus Ward: "I like art. I admire dramatic art, although I failed as an actor. It was in my school days that I failed as an actor. The play was the 'Ruins of Pompeii.' I played the ruins. It was not a very successful performance, but was better than the 'Burning Mountain.' He was not good; he was a bad Vesuvius. The remembrance of it makes me ask: 'Where are the boys of my youth?' I assure you this is no conundrum. Some are among you here, some in America, some are in jail. Hence arises a most touching question: 'Where are the girls of my youth?' Some are married, some would like to be. O my Maria! Alas! she married another. They frequently do. I hope she is happy, because I am. Some people are not very happy; I have noticed that. My orchestra is small, but I am sure it is good as far as it goes. I give my pianist ten pounds a night and his washing. I like music. I can't sing. As a singist I am not a success. I am saddest when I sing. So are those who hear me—they are sadder even than I am."

A CHEERFUL RECORD.

Yesterday morning's Boston Advertiser groups together in a half column on the first page the principal deeds of blood for the previous twenty-four hours. The record is very solacing to those happy souls who wax enthusiastic over the lovableness of human nature and discourse very learnedly on the exceptional character of crime. Of course crime is exceptional. If a majority of men were murderers where would the minority be? Why, there wouldn't be any minority. But society is in a dreadful condition long before the felons become a minority respectable for numbers. One cut-throat is enough to spoil the happiness of a hundred honest men. The fact that criminals are in the minority is no cause for congratulation, but the fact that their deeds are performed every day, all over the country, and increasing in numbers, is abundant cause for serious thought if not alarm.

To return to the list referred to. A rival to Mrs. Sherman and Mrs. Lamb and several other admirable matrons, has been discovered in Kansas. Being on her death bed Mrs. Yoke has confessed that in 1865 she poisoned her husband, her married daughter, two children of the latter, her daughter's sister-in-law, and, last fall, her son-in-law. After all this she went to live with her son, and so her hours were numbered, and she slept with her mothers. Probably her greatest grief on her death bed was not remorse at being six times a murderess, but chagrin that in only her seventh effort she should be hoist by her own petard, while Mrs. Sherman had poisoned eight without any mishap.

In Thorndike, Me., a young man aged twenty-eight did with a bare axe the quietus make of his brother, his brother's wife, one of their children and probably both of them though the little boy may possibly recover.

The cause of all this was that the father had conveyed to the murdered son his farm worth $5000, taking in return a bond for the support for life of himself and wife. The other son, the murderer, did not approve of this arrangement, thinking he was not getting his share of the old gentleman's ducats, and manifested his dissatisfaction by braining his brother's family and setting the house on fire. The brother of the prodigal son was not at all pleased by the conduct of his father, but we nowhere read that he harbored any murderous intentions. But the energetic sons of a hardy clime are much more positive in their feelings, and much more emphatic in the expression of them than are the enervated offspring of a semi-tropical zone.

A few days ago in Rutherford County, Tenn., a ruffian was hung on the sentence of a lynch court for having three weeks before outraged a widow lady and inflicted injuries on her that resulted fatally after some delay. While we think less of Judge Lynch than we do of an elected judiciary, yet we don't feel like condemning very severely this action. If cases ever come within the jurisdiction of this well known court, certainly this case was one of them, and the court acted with commendable circumspection in waiting three whole weeks, and till death actually resulted from the devilish assault.

In *Palisade*, Nev., one Audist inflicted on James Oldfield eight stabs, several of which were fatal. Of course in Nevada we don't expect anything better. A murder there is hardly worth telegraphing cast, but every one counts on this list.

In Newark, N. J., a wife murder was committed. In New York City three murders are reported. Two of them were in bar room fights and in the other case the victim was a man who was abusing his wife, and the murderer was the wife's brother, a reputed idiot, but one who certainly had method in his idiocy.

That is quite a record for one morning paper, and that not a sensational one at all, isn't it?

NEW ENGLAND NOTES.

It is said that New London, Ct., crowds its school children into damp and poorly ventilated rooms, barely large enough to respectably accommodate half the number put into them.

The work of laying steel rails on the New York and New Haven railroad was completed, yesterday, and the whole line from New Haven to New York will now have a double steel track.

The Connecticut legislative committee on humane institutions have reported adversely on the bill making provision for poor insane soldiers, and favorably on the resolution appropriating $10,000 to the State industrial school for girls.

And now Hartford is perturbed over the post-office question. The ground selected for the new post-office building is located on the lower part of the State House yard. The popular will would have it on Main street, and, consequently, there is general dissatisfaction in the matter.

A pupil in one of the Springfield public schools, whose father is a prominent Spiritualist, was sent home by the principal for refusing to read the Bible.

The selectmen of Gloucester offer $500 reward for the apprehension of the murderers of Jacob Pensomault of Rockport, who has disappeared and is supposed to have been foully dealt with.

A young man named Charles Murray has been detected in robbing the Taunton depot. He was employed by the Branch railroad.

When you and your baby are thrown from your carriage, carefully stick your young one between the spokes of the wheel, and let him take care of himself. As Mrs. Edward F. Leonard and her two children were out riding in Raynham a few days since, in turning, the carriage nearly upset, and threw them all out. One of the children, two years old, in falling got entangled between the spokes of a wheel, and was carried a distance of five rods, revolving with the wheel, and, wonderful as it may appear was not even bruised by the operation.

An improvement in the Merrimac river, for purposes of navigation, by deepening the channel in certain places, is loudly called for by the increasing commerce. Much needs to be done between Haverhill and Newburyport, but the appropriations of late made by Congress have been for special application between the former city and Lawrence. The steam dredge De Wolfe has lately passed up to Mitchell's Falls, about two miles above the city, where the summer is to be spent in cutting a channel through the rocks.

Demorest's Young America, for Boys and Girls, one dollar per year. The July number has been received, and is fully up to the standard of excellence for our juvenile friends.

The Science of Health for July is the first of its second year. It is a most practical and useful magazine. The July number contains: The *Physical* Needs of a Baby; Are You Cat-Footed? Rules for Bathing; Constipation and its Cure; Science and Temperance; How to make Lean Folks Fat; Graham Bread; How to Cook Green *Peas*, New and Old *Potatoes*, Squashes, Apples, etc.; Diseased Liver; Three Theories of Disease; Woman's Dress; with the usual "Talks" and "Answers;" making a most valuable number. *Published* at $2 a year; offered "on trial" six months, for $1. Address, S. R. Wells, 389 Broadway, New York.

In the immediate neighborhood of Boston are the delightful little summer resorts of Jerusalem Road, Nantucket Beach, Atlantic, Green Hill and *Pleasant* Beach. A writer in the Boston Journal says: "So rapidly has Jerusalem Road risen in the public esteem that it is difficult for any but the most highly favored to obtain building sites, and to these even the cost of lands is treble what it was two years ago. Combining as it does the music of the lazy waves which roll in upon the beach, and the dash of the waters upon the barren rocks, with the background of deep-tangled wildwood, wherein one may lose himself in undisturbed reverie by walking a hundred rods from the highway, this shore presents attractions unequalled by any section of the Atlantic coast. He who has visited Nantucket once is certain to go a second time, and from being merely a transient habitue of the hotels, becomes in the briefest time possible the owner of a plot of ground, covered with rocks though it may be, and forthwith goes up a rustic dwelling, or may be a palatial mansion, vying in comfort and elegance with any at Long Branch, Cape May or Newport."

THE FRIENDS.

Third day afternoon. Discussion on Indian Affairs. Arguments for and against the General Meeting.

In the afternoon the meeting united in a joint session, the assistant clerk read the minutes of a representative meeting held in Newport, Sixth month 1872, and Providence, Second month 1873.

Charles R. Tucker said that the doings of the representation meetings for the past year were presented in a report, and it was for the Friends to express approbation or disapprobation. Many of the Friends arose and expressed themselves highly pleased with it. This representation meeting reported that the matter of Indian affairs be considered by the yearly meeting, and that the schools in the Pawpaw and Peoria tribes be particularly commended to the care of the New England yearly meeting.

Edward Earl explained more fully the intentions of the meeting, and the needs of the Indians, who require instruction and clothes and utensils. The President's policy was endorsed by the people last fall, but every little set back like the Modoc difficulty discourages the public. But we must have more faith. The expense of the two schools mentioned will not be over $2000, and probably not over $1000.

Eli Jones said that before the recommendation was adopted the cost should be commuted. He wishes to know if the Friends of New England had a deep religious interest in the welfare of the Indians. Would the money be freely given? If a New England mission is to be established among the Indians, it is a great undertaking, but one which will never be regretted. But if it is to be successful there must be a deep and extended interest in the work.

Competent interpreters are greatly needed by the mission work.

Young Indians must be educated and converted that they may translate the messages of salvation brought by the white preachers. We must not be afraid of having Indians come into our meetings or even have meetings of their own.

Charles F. Coffin said the government furnished rations to those who were employed at the mission; but these were not always suitable for the women and children, and many things are needed which the government can not furnish. Cloth is needed.

It is intended that these wants shall be supplied by the yearly meetings who adopt the tribe. The tribes assigned to New England have already shown much susceptibility to religion. Life time laborers are required. Not those who go for a year or two, but for all the time.

Several Friends followed in hearty commendation of the adoption of the Indian work.

Joseph Grinnell thought the Indian work now is a great deal like the Freedmen work of eight years ago, and he had no doubt the money would be forth coming. Gertrude W. Cartland followed earnestly commending the adoption of this work. Elizabeth Meader followed with similar remarks.

Dr. Nicolson said that the care of the schools was no such great thing after all. The government helped, and the Indians themselves would do something.

The money wanted of the Friends is only to piece out the Congressional appropriations.

Wistar Evans, of *Philadelphia*, one of the Indian committee, spoke highly of the interest of the Indian work, and of the results which are promised. In its efforts towards a peaceable policy the government must have the support of the people.

Barnabus C. Hobbs said that in the providence of God the nation has put this whole matter in the hands of Friends from the conviction that the policy of war was a failure. It is the duty of the Friends now to show the world that peace principles are operative. He mentioned the immense influence over the Indians gained by Dr. Towlinson on account of his successful practice, and by this means the cause of Christianity was much advanced.

Blue Jacket, an Indian, said at Indianapolis that the first requisite of an Indian agent was that he be a praying man and a consistent Christian. He said patience was needed. It takes a life time to make a white man out of an Indian, but an Indian can be made out of an Indian in about two weeks. And lastly there was no use in talking peace to the Indians with pistols in your hand, for he doesn't believe anything you say.

Timothy K. Earl expressed confidence that the meeting was willing and anxious to undertake this work.

John Henry Crossman hoped the work would be adopted by the yearly meeting and not intrude it on any association.

The meeting expressed itself as fully prepared to accept the recommendation of the representation meeting.

A committee of two from each quarterly meeting was appointed to report a plan for the management of the schools, and to nominate a permanent committee on the whole matter. The committee consisted of Thomas H. Buffum and Gertrude W. Cartland, of Rhode Island; Owen Dame and Ann Maria Collin, of Salem; Joseph Grinnell and Rebecca C. Grinnell, of Sandwich; Lemuel Jones and Jane C. Minor, of Falmouth; Richard W. Beatty and Abby S. Beatty, of Smithfield; Charles Cates and Mary B. Cates, of Vassalboro; Albert C. Buffum and Huldah S. Buffum, of Dover; and Moses Bailey and Hannah J. Bailey of Fairfield.

The first committee on Divine worship made a report of the meetings held and the favorable results therefrom. Satisfaction in the report was expressed.

Some discussion followed on the question of having a committee on meetings appointed by the yearly meeting in addition to the committees of the quarterly and monthly meetings. Most the persons favored the arrangement of the past year.

Luke Woodward spoke strongly in favor of this system of general meetings under charge of a committee. Wherever these meetings were held the result was a special outpouring of grace, many conversions, and quickenings, and many additions to the society have resulted. They have also harmonized discordant elements in many places. The testimony has been universally in favor of them. Many things which he personally had supposed to be fixed laws he had lately learned were only traditional prejudices. He now was willing to let the work of God be done in any way.

Timothy K. Earl testified to the great value of general meetings. Family altars were often their results.

Jonathan DeVall commended these meetings. Since they were introduced into New York the number of conversions had greatly increased.

Eli Jones said he had attended four of the seven meetings held. He entered on the work with much solicitude, because, though it might not be generally known, there was considerable of the conservative element in him. But these meetings have resulted in great good, and he could thoroughly endorse them. He advocated the appointment of a committee by the yearly meeting.

Rhoda Coffin described her own experience in the management of these meetings. They had been of the greatest value, especially when the human machinery is dropped and God's Spirit is allowed to work in its own way.

Friend Butler, of Ohio, said that at first, two years ago, he lacked faith in this movement and was rather opposed to it. But against his wish he was put on the committee of management, and experience had thoroughly convinced him of the value of the meetings. Let the meetings be maintained in a way not inconsistent with the professions of the Society. But let all attend and help these meetings.

Phebe R. Gifford, of Dartmouth, expressed her disapprobation of the so called general meetings. If there are discordant elements in our loyal society they should not be exhibited to the world, but be composed in secret. She was not satisfied with the manner in which the meetings had been conducted. For instance the habit of ministers calling on persons to speak she could not approve of. We should all be left to follow the Master as we can. It is our duty to show the world that we wait on the moving of the Spirit. The Lord Jesus is not allowed to direct who shall speak.

The committee on meetings was reappointed. In the place of Thomas E. Stearn, deceased, Thomas E. Buffum was appointed.

Barnabas C. Hobbs said he had not at first looked favorably on these meetings, but he believed the new movement was only a revival of the Christian spirit. On this matter the elders and the youth appeared to be to opposing factions, but the result of the meetings was to bring them together to advance the cause. These meetings should be encouraged but closely watched.

Third Day Evening.

The meeting was opened by reading of the ninth chapter of Isaiah by Jabez Wood of New Bedford.

Eli Jones addressed the meeting and said the friends had come up here to consider how to improve their Christian character, and to seek the good of the church. This evening had been devoted to a consideration of war with all its attendant evils, and by the opposite "peace on earth good will to men." He then introduced Barnabas C. Hobbs who addressed the meeting as follows:

The great difficulty of the question is the Old Testament argument, and this is generally avoided in peace addresses. It is easy to make a peace appeal out of the New Testament. But it is urged that God has allowed and commanded war. First, we must have a recognition that God has two empires, mind and matter; and second, He sustains both these empires by his own power and can do with both exactly as He pleases. What we call the laws of nature are the laws which He made before the creation.

The laws of nature are so perfect and regular that we forget the God of nature and think of nature alone. But God is everywhere, and sustains everything.

Men discuss what God ought or ought not to do, as though right and wrong were abstract principles. What God commands is right and what he forbids is wrong. He never argues the question of right with men; it is enough that He issues a command. Acknowledging these principles we are prepared to begin the study of the Bible.

When Cain had slain Abel he was afraid of man lest he should be slain. But God forbade any one's killing him. It was not till the time of Noah that God declared the law of retribution and then He said that He would require the blood of the murderer, not that man should require it. But in the Ten Commandments it is said "Thou shalt not kill," although in the Mosaic law the law of murder is clearly laid down. A relation was not allowed but required to avenge even killing by accident. Whether he wishes to or not the relation must pursue the killer.

So a refractory son was commanded by the law to be stoned, and the law of God must be obeyed. In the Lord's wars we find God's prerogative in the destroying angel, the ambassador, who was specially sent to do the will of Heaven. Our lives are in God's hands. It is His prerogative to determine who shall live or who shall die.

What angels could do, men could do, and we see that all the wars of the early Jews were by the direct commands of God. In these wars the men only did exactly what they were told to do.

Some clergymen say that we must consider peace apart from human government. That is, that in private we must keep the peace, but if rulers order us to make war we must obey. But God's dealings with the Jews teach us too that there is but one law for private citizens and for the government.

David ruled according to law, and searched it to find his duty. He never dared to go to war unless he had ascertained that God was on his side. Because the holy wars were entirely under God's personal charge they were free from that spirit of hate and revenge which characterizes modern war. All this time man was not to take the life of man himself. *Punishment* came from God, as upon David in the case of Uriah.

In the temple service this law of retribution was a part of the typical Mosaic system. But the whole Mosaic system was abolished when Christ came.

We must not oppose war because to take life is wrong in the abstract. We must all die. The question is, who is authorized to take life? We are all under condemnation, and escape only by mercy. When we execute a criminal it is one condemned sinner killing another condemned sinner.

The whole matter is in the prerogative of God, and it is our duty as citizens or officials to treat all with benevolence. We should treat criminals as maniacs, risking our own lives if needful but making no effort against the lives of others, and we must trust in God. The doctrines of peace sufficed in the early history of *Pennsylvania* and New Jersey, and must ultimately prevail all through the world.

In the early colony times the houses of Friends were always secure. Only two Friends were killed by Indians. One of these had a gun over his shoulder and the other was on the way fleeing toward a military garrison. The rebellion in Ireland of 1798 affords the most abundant evidence of the triumph of peace principles. In that rebellion only two Friends lost their lives and they had betaken themselves to the military for protection.

Francis T. King of Baltimore said that like the slavery question, the peace question is not understood by, or interesting to the masses of the people. Standing armies do more than anything else to foment war. War brings such commercial troubles that it becomes an economical question, and standing armies are now occupying the attention both of common people and of statesmen.

Arbitration has always been urged by the Society of Friends.

Difficulties between individuals and districts are now decided by the courts and now the effort is to bring the heads of nations to submit to arbitration. The Geneva arbitration, and the San Juan affair have attracted attention to this mode of settling difficulties. The progress of international law is paving the way to universal peace. International law is to grow up like the common law, by custom and common consent.

William Wetherell said that arbitration was superior to war in that it saved bloodshed, but it was, like war, an effort to get the advantage over others. There is no evidence that any Christian for the first two centuries bore arms. What we are to do is to seek what God wills we shall do.

Murray Shipley said as treasurer of the peace association he would appeal to the audience for money. The Society annually sends thousands of dollars worth of circulars and tracts to clergymen, editors, and all thinking people. Every one can help the cause of peace by contributing to the funds of the Society. When Russia withdrew from its Black Sea treaty it was the Quaker education of John Bright that saved two nations from going into a great war.

George Dulingham of St. Albans said that after two years service in the army of the nation, and three years in Christ's army he fully endorsed all that had been said.

Edwin Humphrey of England spoke of his success in circulating peace tracts.

Jonathan DeVall mentioned the incident of a Methodist minister who said some years ago that the rebellion must be crushed though every Southerner were annihilated, but he acknowledged that he could not defend his position by the New Testament.

Eli Jones said in the New Testament the peace man has an easy time. In the Old Testament it is up hill work, and the war man will ask if you would not kill a man in self defence. The speaker said a man could never be perfectly sure that any other man intends to kill him. He mentioned a case in which on the coast of Africa his life was threatened but his non resistance saved him. He had traveled for months among the Bedouins unarmed and uninjured.

Fourth Day—Morning. A Discussion on the Indian and Freedmen's Works. Remarks by Charles F. Coffin and others.

The meeting was opened at ten o'clock with prayer by Charles F. Coffin. The assistant clerk read the report of the Freedmen. Little has been done this year. In Washington an excellent First-day school has been maintained near the Lincoln institute. There is urgent need of more missionary labor. Several missionaries ought to be sent out at once. It is recommended that the Washington mission be closed and the property sold. The expenditures have been $4181.

Edward Earl said that considerable property was bought in Washington at a low price. The mission have in the treasury about $1000 and the property is worth at least $6000.

Henry T. Wood said, in New York, the Society raised, last year, $1900. But the committee recommended that the work of feeding and teaching be dropped, and that more active exertions be put forth to benefit the Freedmen religiously. The New York Yearly Meeting would like to unite with New England in this work.

Charles R. Tucker, the clerk, spoke favorably of the report.

Several friends urged that the meeting take immediate and earnest action in regard to the work. Many expressed warm sympathy with the committee and the wish that it should be reappointed.

Edward Earl objected to keeping the Washington property for any rise in price. It hinders action in other discretions.

Eli Jones hoped the work would assume a more decidedly religious nature.

Barnabus C. Hobbs spoke of the schools of the prophets among the Jews and of the need of religious educational instructions. Our great work is to establish normal schools through the South.

Charles F. Coffin said that there was a growing feeling that the Friends had a call to propagate the Gospel among the nations that know not God. "He that watereth shall be watered himself." He mentioned the early history of the Friends' mission in Madagascar, which has been very successful.

Louis. Street who went to that island six years ago, is now in England, broken down in health, but hoping to return. More recently Elkannah Beer felt moved to go to Africa and has there done much good. These mission enterprises reach and produce a most excellent effect on the meetings at home to which the missionaries belong. A year ago a missionary and his wife were sent to Mexico, and have done already a great work. Many young persons are anxious to be sent to foreign lands to carry the Gospel tidings.

He wished to awake an interest in foreign missions among the society, and to lead to enlarged contributions. He suggested that some central organization be formed for the direction of this work for the society at large.

Murray Shipley followed and spoke of the progress of true religion, and the cessation of persecution. He invoked the interest of all Friends in foreign missions.

Gertrude Cartland hoped that all persons who felt called to go abroad would express their desires to the meeting, and she was sure the means would be supplied.

Rhoda Coffin spoke of the greatness of the field, which needs only to be seen to be appreciated.

Luke Woodward spoke of the excellent effect produced on the church home by the missionary work. The negroes are fellow citizens, and there are patriotic as well as Christian reasons for doing all we can for their elevation.

Phebe R. Gifford exhorted the Friends to have more faith and put all their confidence in God.

☞Discharges from the ear, whether caused by scarlet fever, measles or other permanently and radically cured by Dr. Sweny at the Perry House. tf.

STATE MISCELLANY.

Four accidents have occurred at the American Spool Co.'s works Westerly within a few days, two being from cuts with circular saws, and two from burns.

Wayland is the name of a new station on the Hartford and Fishkill Railroad between Cranston and Oak Lawn.

H. C. Card, of Westerly entertained a surprise party on Friday evening.

Hon. Rowland G. Hazard, has arrived at his home in Peacedale from Europe, where he has been for the past six months.

Blacque Bey, the Ottoman minister, has arrived at Narragansett Pier.

The Providence, City Council conferees wouldn't "budge an inch" on the proposed $4,000 appropriation for the Fourth of July. The Conferees of one branch have since declared that if their resolution was killed, they would introduce another one for an appropriation of $3,999,99, not one cent less.

Woonsocket has dug a well on Blackstone square for the comfort of man and beast.

Lonsdale will celebrate the Fourth as follows: Ringing of bells at 5 o'clock, with national salute; parade of societies, citizens, &c., at 10 o'clock a. m.; oration, toasts and picnic in Prospect Grove, at 12 m; amusements for both old and young, at the Grove, in the afternoon; a display of rockets, bombshells, &c., (no set pieces) in the evening. The Lonsdale Cornet Band have been engaged, and will furnish the music for the day.

☞Catarrh and all other diseases of the air passages and lungs treated with perfect success by Dr. Sweny, at the Perry House. tf.

SEASONINGS.

Rocky *Point*, at which place Rhode Island clams and shore dinners by thousands are partaken of, is much frequented during the summer months. Its natural attractions make it as widely known as any similar resort in the country.

Schoharie Valley and the surrounding neighborhood contains some of the most attractive nooks in New York state. It is but twenty miles from Sharon Springs and thirty-four from Saratoga. The *Parrot* House, Schoharie, is well known and bears an excellent reputation.

The Isles of Shoals are likely to gain popularity as a summer resort from the publication of Mrs. Celia Thaxters charming book about them. Situated off the coast of New Hampshire, the little islands are surrounded on three sides by the Atlantic Ocean. Appledore, formerly Hog Island, is much larger than the other isles." The only summer hotel of importance is on Appledor Island. A correspondent of a New York journal says: "The patrons of the Shoals care very little for fashion, but much recreation and rest. Dressing for dinner has not been introduced here, and the result is that women have on their hands an inordinate amount of time, which they wisely devote to reading, fishing and sailing. So peculiar is this place that even husband hunting as a profession is unknown.

☞All chronic complaints successfully treated by Dr. Sweny, at the Perry House. tf.

The Mountain House, on the summit of Mount Sugar-loaf, in South Deerfield, which was built several years since, but has been closed for some time, is undergoing repairs and will be reopened to the public in a few days.

☞Deafness, noises in the Head: permanently removed by Dr. Sweny, at the Perry House. tf.

MARRIED.

FISH—TALMAN.—In Portsmouth, 13th inst., by Rev. Mr. Rogers, Mr. Sylvanus P. Fish to Miss Martha E. Talman, both of Portsmouth.

COLGATE & CO.'s new perfume for the handkerchief, "Cashmere Boquet" will be appreciated by all who have enjoyed the delicate and peculiar fragrance of their toilet soap of the same name, which is so universally popular.

Summer Dangers.

The summer sunshine that clothes the earth with luxuriant vegetation, evaporates a vast amount of crude, unwholesome moisture from its surface, which, mingling with the air in the form of mephitic gases, produces a variety of febrile and other diseases. The body being debilitated by the warmth of the season, and the pores being wide open, gaping as it were for the seeds of sickness, any infectious principle that may exist in the atmosphere, is readily received into the system, when it bears baneful fruit in the shape of malarious fever, biliousness diarrhea, dysentery, colic, sickness at the stomach, headache, or nervous prostration. In order to prevent these visitations, put the system in a condition to resist all morbid influences. Brace the inner man with Hostetter's Stomach Bitters, the purest invigorant and the most invincible antagonist of all causes of disease, whether present in the air we breathe, the water we drink, or connected with our manner of life or the nature of our pursuits, that science has yet given to the world. The experience of twenty-five years has taught an observant people, that the unexceptionable and agreeable tonic and alterative possesses preventive and remedial virtues that are shared by no other medicine of the present age. It has taught them also that while it is infinitely more efficient than any of the poisonous alkaloids prescribed as tonics, it is absolutely and entirely harmless.

HOMŒPATHIC COCOA, prepared under the most able homœpathic chemical advice, is freely allowed by physicians of that school when a strict embargo is laid upon tea and coffee. Few who have tested the purity and exquisite aroma of this choice preparation will ever wish to resume the interdicted articles. Made by Walter Baker & Co., Boston, and for sale throughout the land.

Moonlight Walks should be followed by a stiff dose Williams' Extract Jamaica Ginger.

For Loss of Appetite, Dyspepsia, Indigestion Depression of Spirits and General Debility, in their various forms, FERRO-PHOSPHORATED ELIXIR OF CALISAYA made by CASWELL, HAZARD & CO., New York, and sold by all druggists, is the best tonic. As a stimulant tonic for patients recovering from fever or other sickness it has no equal. If taken during the season it prevents fever and ague and other intermittent fevers. My22tw

ANNOUNCEMENT.

OUR annual hand-book to Newport will be issued shortly, for the season of 1873.

The character and value of the book is so well known that a description is unnecessary. A convenient map of the city and island will be added to its other attractions the present season. We consider this an unequalled medium for those who desire to reach directly the summer visitors. Advertisements will be inserted on the same terms as formerly. We desire that cards be handed in at once as we shall go to press immediately. There are now some choice positions, which may be secured if applied for at once.

Hotel for Sale.

THAT VERY DESIRABLE PROPERTY at the Stone Bridge, in Tiverton, R. I., popularly known as the Lawton House, is offered for sale on easy terms of payment. The property consists of about seven acres of excellent land; the Hotel, with all the furniture therein, which is in good condition, and very abundant for the business; all the outbuildings, among which are two large stables in good order, one of them being new within three years; carriage houses; a large laundry, nearly new, with every convenience; a cistern holding 400 barrels of water; a bowling building with two good alleys; an ice house filled with about 220 tons of ice,—and a gas house with a superior automatic gas machine that furnishes gas for the house, billiard room, alleys, &c. Over the carriage house is a fine hard-finished billiard room, with two of Cam's tables.

This property is located just one mile from the Old Colony Depot, and in one of the most delightful places of New England; is about 12 miles from Newport, and 6 miles from the flourishing and rapidly growing city of Fall River. The facilities for boating and fishing are excellent. The property can be purchased reasonable, and at a bargain.

For any information wanted inquire of A. T. LAWTON, the owner, 16 Bull Street, Newport, R. I.

N. B. Until the property is sold, the Hotel will be carried on as a first-class one, under the same management as heretofore. A. T. LAWTON.

Newport Daily News.

WEDNESDAY, JUNE 18, 1873.

GENERAL NEWS.

FROM WASHINGTON.

June 17.—The expectation of the Attorney-General that the appointment of Judge Sanger as United States district-attorney would be returned today from Long Branch, in answer to the recommendation made to the *President* by the Attorney-General, was not realized. Appointments to two other offices of the same kind were sent up, but the facts learned in regard to the Boston district was that another candidate, Judge Charles Devens, had been named to the *President*, and the latter was strongly disposed to appoint him on account of their old army friendship, as well as on account of legal gentlemen who are urging him.

BACK PAY.

The complete list of Senators who have turned their increase salary into the Treasury shows that quite a number of those who have been generally credited with such disposition of their back pay cannot truthfully claim the honor. Up to tonight fourteen have directed the return of their money through Treasurer Spinner, and the names here given may be relied upon as entirely accurate:—

Anthony, Bayard, Chandler, Casserly, Fenton, Ferry of Michigan, Frelinghuysen, Hamlin, Pratt, Schurz, Scott, Sumner, Thurman, Wilson.

NEW YORK CITY.

HEALTH.

The board of health was called on to notice the stench of the works of the New York Gas Company on the eastern portion of the city. In view of the near approach of the heated term and the chances of an epidemic of cholera or yellow fever, the board is making strenuous efforts to prevent such visitation. The street-cleaning force has been largely increased, and the basements and cellars are to be cleared of their tenants.

Today, the basement at 20 Catherine street, 60, 62, 65, 76, and the cellars at 79 James street, 106 and 109 Cherry street, and 10, 12, 16 and 19 North Williams street, were closed, and the troglodytes forced to find dwellings above ground.

FOREIGN INTELLIGENCE.

ROME, June 17.—The senate today passed the bill for the suppression of religious corporations by a vote of 68 to 20.

MISCELLANEOUS.

NEW IBERIA, LA., June 17.—The four negroes who murdered Lanet and Snaire last Friday night at their store, were arrested in that neighborhood this morning. One turned State's evidence and related how the atrocious crime was committed, the plot having been made over a week before. After the close of the investigation by Seymour Snaire, a brother of one of the murdered men, no doubt remained of the guilt of the negroes. By this time the people in large numbers had assembled and clamored for the summary execution of the murderers, but they were saved by the intercession of Mr. Snaire, who then left for this place. The prisoners were brought here, and on their arrival the indignant citizens, numbering over a thousand, took them to the woods on the east side of the bayou Teche, and hanged three of them to a limb of a tree.

HARTFORD, CONN., June 17.—The dwelling-house and two barns of the late Seth King of Suffield were burned about 6 o'clock this evening, causing a loss of about $14,000; insured for about $10,000. The fire was incendiary. There have been several incendiary fires in the city recently.

SAN FRANCISCO, June,—The candle factory of the Judson Company on 16th street was burned last evening. The loss is estimated at $50,000.

ELMIRA, N. Y., June 17.—A large tannery belonging to Weltz & Stratton, four miles from Adison, Steuben county, was burned last evening. Lost $15,000; insurance, $10,000.

WORCESTER, Mass., June 17.—A fire broke out at half past twelve last night in Westborough, in Eagle block, opposite the Boston and Albany station, it first appearing in the upper stories, occupied as tenements. The flames spread rapidly, soon communicating to the adjoining buildings. Westborough has only one steamer and one hand engine.

Newport Daily News.

WEDNESDAY, JUNE 18, 1873.

At a large dinner party once, the poet Rogers was speaking of the inconvenience of having windows formed of one sheet of glass. They look as if there was no glass, he said. A short time ago, as I sat by the table with my back to one of these panes, it appeared to me that the window was open, and such was the force of imagination that I actually took cold. Dear me; said Babbage, who sat opposite, how odd it is, Mr. Rogers, that you and I should make such a very different use of the faculty of imagination. When I sleep unexpectedly away from home, and consequently have no night cap, I should naturally catch cold. But by tying a piece of packed thread tightly around my head, I go to sleep imagining that I have a night cap on, and catch no cold at all.

Judge Ranney, of Cleveland, has presented to the Ohio Constitutional Convention a plan for remodelling the state judicial system. It abolishes the District Courts, and provides for a Superior Court, a Circuit Supreme Court, Common Pleas, Probate and Justices of the Peace Courts. The Superior Court is to consist of ten judges, to hold its sittings in the cities of Cincinnati, Columbus and Cleaveland. The Circuit Supreme Court is to be presided over by judges from the Supreme bench.

HEAT REGULATOR,

FOR

Hot Air Furnace.

THIS INVENTION has now been thoroughly tested for Four Years, and is offered to the public as a perfect remedy for the inconveniences, dangers and annoyances arising from Furnaces as ordinarily managed.

Attached to Brick or Portable Furnaces Old or New, For Sale by BROWN, GODDARD & BARLOW, jan16-nej Sole Agents for Newport County.

In the wonderful medicine to which the afflicted are above pointed for relief, the discoverer believes he has combined *in harmony* more of Nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt Rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful purifying and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of **Habitual Constipation** of the bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise.

The proprietor offers $1,000 reward for a medicine that will equal it for the cure of all the diseases for which it is recommended.

Sold by druggists at $1 per bottle. Prepared by R. V. Pierce, M. D., Sole Proprietor, at his Chemical Laboratory, 133 Seneca street, Buffalo, N. Y. Send your address for a pamphlet.

THE GREAT SOUTH AMERICAN **JURUBEBA** BLOOD PURIFIER

Is the most powerful cleanser, strengthener and remover of Gladular Obstructions known to Materia Medica.

It is specially adapted to constitutions "worn down" and debilitated by the warm weather of Spring and Summer, when the blood is not in active circulation, consequently gathering impurities from sluggishness and imperfect action of the secretive organs, and is manifested by Tumors, Eruptions, Blotches, Boils, Pustules, Scrofula, &c., &c.

When weary and languid from overwork, and dullness, drowsiness and inertia take the place of energy and vigor, the system needs a Tonic to build it up and help the Vital Forces to regain their recuperative power.

In the heat of Summer, frequently the Liver and Spleen do not properly perform their functions; the Uterine and Urinary Organs are inactive, producing weakness of the stomach and intestines and a predisposition to billious derangement.

DR. WELLS'

EXTRACT OF JURUBEBA

Is prepared directly from the SOUTH AMERICAN PLANT, and is peculiarly suited to all these difficulties; it will cleanse the VITIATED BLOOD, strengthens the LIFE-GIVING POWERS, and REMOVE ALL OBSTRUCTIONS from IMPAIRED ENFEEBLED Organs.

It should be freely taken, as Jurubeba is pronounced by medical writers the most efficient PURIFIER, TONIC and DEOBSTRUENT known in the whole range of medicinal plants.

Diamond Spectacles.

THESE SPECTACLES are manufactured from "MINUTE CRYSTAL PEBBLES" melted together, and are called Diamond on account of their hardness and brilliancy. It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic abberrations, and produce a brightness and distinctness of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Company, New York. For sale by responsible agents in every city in the Union. H. A. HEATH & CO., Jewelers and Opticians, are sole Agents for Newport, R. I.,—from whom they can only be obtained. No peddlers employed. Do not buy any unless you see the trade mark. ap
